

Quarterly Business Review — Engineering (Q1 2025)

Rodriguez, Figueroa and Sanchez · Prepared by Brittany Johnson, Head of Engineering

Brittany Johnson, Head of Engineering, presented the Engineering team's results for Q1 2025 at Rodriguez, Figueroa and Sanchez's quarterly business review. Performance in the APAC region was highlighted as a key driver of the quarter, with the team crediting close coordination between Engineering and the Customer Success organization.

Among the quarter's notable wins, Mary Gomez of Henson, Russell and Oliver expanded their footprint with DataPulse Analytics, while Courtney Keller of Murphy-Lin renewed their agreement covering Metrics Pro. Brittany Johnson noted that TeamSync Hub continues to see strong adoption across the APAC customer base.

Brittany Johnson also recognized Candace Cruz (Software Engineer) for outstanding contributions during the quarter, and reiterated that the Engineering team will continue reporting into the broader Engineering organization for 2025 planning.
